\*\*\* 1983 Assessment Formula \*\*\*

The above is the computer print-out of the 1983 Assessment. The same basic formula was used for 1983 as was for the 1971 Assessment. The amount of 10% for Acc't No. 19 is \$ 690.00, leaving the amount of \$ 6,210.00 to be levied on all the other water users. Therefore, \$ 690.00 divided by 563.70 units equals \$ 11.01649814, cost of one pro-rated Ratio, which multiplied times each user's ratios equals his or her 1983 Water Assessment.
